

## DOMMERPRESENTASJON

### Biography of my cynological life

My name is Simone Frankenberg, I am breeding under affix ' vom Welfenhof ' since 1996 the wonderful race Cavalier King Charles Spaniel in Germany.

I am married since 32 years with my husband Rolf. We have two wonderful sons and we expecting our first grand son in June.

I have dogs as companions for all my life Our first dog was a German shep dog, who was lying near my stroller and watching me as I was a baby. Later we had a Dachshund and a Bouvier de Flandres in our family.

If Rolf and I where married we bought a Newfoundlander for us and some years later our first Cavalier came in our house. After a short time the second cavalier followed him. Both where so lovely companions and family members. We falled in love with this race and decide to watch some shows and contacted some other breeders.

I learned about this race step by step and visited some english breeders the following years.

My first import from UK was Multi

Champion and World Winner Sanickro Escapade. I picked him up in the age of 8 weeks. It was love from first view. He was a lovely dog with the sweetest expression and a lot of temperament.

One of his daughter, Rumba vom Welfenhof, was my importend brood bitch. She is 14,5 years old now and her name is in the most Welfenhof pedigrees to find.

Ch.Sanickro Escapade was the key for a wonderful typical type in my breed and he gave very healthy progeny.

Over the years I bred many Champions, national and international and some World Winner also. I got the judge license for Cavalier King Charles Spaniel in anno 2012 for national shows and in anno 2015 for international shows FCI.

I was judging until now in Moskau, France, Dänemark, Sweden, Estonia and in Germany .

So it will be a great pleasure for me to come in your beautiful country and see all your lovely cavaliers.

Thank you and best regards

Simone Frankenberg
